**Small Project Work**

Appleseed Energy is a full-service green-energy consultant and installer for Cape Breton, Antigonish & Guysborough Counties, specializing in solar energy for residential, agricultural, business, municipal and marine. We design grid-tied and off grid.

Low-maintenance panels are warrantied for 25 years and will likely last much longer  
 Each system customized to your needs,  
 pollution-free and silent-running,  
 Installing just 16 panels will save  
 hundreds off your annual power bill  
 A full roof, and you could be generating  
 all your electricity needs for free

Call now to discuss your energy requirements, obligation free
